

DANCE WITH LIFE
DANCE WITH LOVE
LEAVE YOUR HEART-PRINT

Hello to All of our Beautiful Friends

*I am writing to let you send an **Alert to Possibilities!** This year - because of many people being challenged by the economy- our number of guests are down. In fact we have only **six guests** booked for 16th -22nd March. (the lowest number since we began)*

*If these numbers continue it **may** mean that our time is limited.*

*I am aware that there are a number of you who have indicated that you wish to come again for a **refreshment retreat** so this is why I am sending this **Alert to you all.***

We are sensitive to the fact that finances are tight for many of you & because of this we offer a Payment Plan over some months. We have had over 100 guests make use of this & we have only been disappointed twice so why wouldn't we trust you all!! If this will enable you to come please make the most of this offer.

I am also aware that you may have family / friends who are interested in walking into their healing (& perhaps have been putting it off) so I suggest that you encourage them to come as soon as possible as we do not want anyone to miss out.

Maybe - you are still comfortable financially & may wish to gift another with a retreat. I assure you that when this happens you certainly gift another with a new lease of life & healing. We have had some guests whose lives were literally saved by this gift from another.

*When you return for a retreat we have a different starting point which focusses on **now & recent past.** **You do not need to go over what is healed & healing from the previous retreat as there is no energy left in that.** You will claim healing for what is calling for attention to enable you to have a fresh start in this **now of your life.***

*We have always known that sometime our retreats may come to an end & **maybe this is the time.** However, having said this we do not want to give up easily.*

I look forward to hearing from you & maybe some can be organized for 16th March.

*Let's connect in the energies of love across the spaces of our amazing country & beyond. I have no doubt that when I send my energies of love that then Love moves someone to **be the face & heart of Love to another in need.***

I am convinced that we can walk through these times supported by Love & create a better world for all today & into the future.

Wrapping each & all in love

Julie (for the team)

May Love reveal to each of us

The power of Love within our own hearts

Especially in those times when fear/ anxiety try to take control.

May we stand against the messages of fear being shouted from the media etc

May we sit in the stillness & draw in Love's gifting.

May we give a smile to others as we walk our days

Sometimes this smile will be a message of hope for another who is struggling.

May we recognize our blessings that otherwise may be taken for granted.

*May I remember that Love's gifting is within my **now moment.***

Love says:

I gift you with your own magnificence

I gift you with peace

I gift you with hope

I gift you with happiness.
